# Elegant Silver Plated Eight Arm Chandelier

## PRODUCT DESCRIPTION

Fabulous eight arm candle chandelier.

From a large central ball, eight curvaceous arms extend to support original black tapered candle tubes (these could be replaced with ivory candle tubes).

A wonderful feature of this chandelier is that a detailed salmon adorns each arm, complete with scales, eyes and a gaping mouth. Combined with the liquidity of the curved silver arms, there is an oceanic feel to the whole piece.

Lovely patina to the aged silver plated metal and attractive reeded details. Chandelier's make a wonderful statement in any room of the house, and all eyes will be drawn upwards for this one.

This piece has been fully rewired.
