Part of our Lorfords Contemporary made-to-order collection. The Camden is an easy blend of simple lines and comfort. Compact and stylish, it is a chair great for smaller spaces where the design provides for maximum comfort in the smallest of footprints. A beech frame with hand-tied coil sprung seat reflects the commitment to traditional methods and yet the simplicity of the Camden easily lends itself to the clean lines of a contemporary home. Dressed up in a skirt or fringing however, and it is a pretty as a picture in a country cottage or drawing room! Lorfords Contemporary is based in the Cotswolds and creates luxury bespoke furniture using traditional upholstery. For more information or to view the whole collection please visit www.lorfords.com.
