Beautiful Regency bookcase with original paintwork.

The painted pine makes this an unusual Regency piece; a bookcase from this period would typically be more formal, in mahogany or rosewood.

All the more special are the elegantly painted panels on the twin cupboard doors, which are original.

This is a sizeable piece, with a plinth base and cornice. Three visible wide shelves above another one in the cupboard.

The light warmth of the painted pine and grandeur of craftsmanship make this bookcase a charming, unique survival from Regency England.
