Wonderful two-door cupboard, originally from an English school. Circa 1900.

This fantastic cupboard was used in the music room at a school for storage. The students were permitted to decorate the doors with graffiti, which they clearly took up with great enthusiasm!

The graffiti itself dates well into the 20th Century, with references to Fleetwood Mac and other fascinating details.

True one-of-a-kind piece that will bring great character and personality to any interior.
