W: 99 cm (39")
H: 81 cm (31 7/8")

Majestic French carved wooden horse on an iron stand. Circa 1860.

This wonderful piece of French folk art is an extraordinary testament to loving craftsmanship.

The horse itself is in a rearing position, with a fabric saddle and bridle details. Remains of old white and grey paint to the body.

The horse is supported on an impressive iron framework, including large spoke wheels and supports with decorative fretwork details.

The overall impression is of a horse and cart, and this piece would make for a very charming decorative feature in an interior.
