Fantastic 19th Century Spanish bookcase, in its original paint.

Of large scale, this bookcase has striking low-waisted form which allows for extensive display.

To the top section, the cornice sits above glazed panelled doors which enclose several shelves.

The bottom section offers panelled cupboard doors, with further storage inside.

This piece maintains its original paintwork throughout in pretty shades of green. Gilded rosette and acanthus motifs make a lovely contrast to the paint and complete the decorative look of this piece.

Practical and beautiful, this bookcase will bring great character to any space.
