Very stylish Swedish 1950s 'Kurva' chair, by Yngve Ekström.

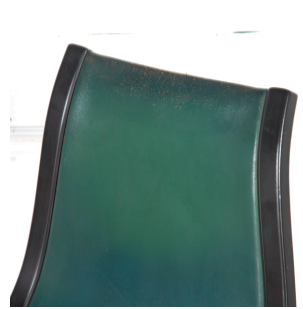

This lounge chair model was designed by Ekström for Swedese in the early 1950s. The model was a precursor to the legendary Lamino chair, and far fewer of these earlier chairs were made.

It comprises a curved and reclined ebonised frame and retains its original green leather seat and back.

This chair has a great vintage look and will be a striking feature in any interior.
