

DA2515608

19th Century Copper Measuring Jug **£320.00**

W: 46 cm (18 1/8")
H: 44 cm (17 5/16")
D: 35 cm (13 3/4")

Large English 19th Century copper liquid measuring jug.

Featuring a large shaped and riveted handle and a pouring spout. Grooves and signs of wear to the body just add to the texture and appeal of this jug.

It has a great patina with hints of verdigris.

This jug has a great country house aesthetic and will provide a lovely decorative accent. Would make for a wonderful rustic vase.

Materials & Techniques: Copper
Condition: Good
Period: 19th Cent
