Stunning 19th Century painted side cabinet.

This extraordinary piece of original, painted furniture depicts a garden made resplendent with both classic and gothic ruins. This style was popular during the 19th Century because of its mystical aesthetic.

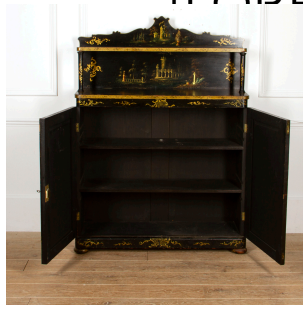

The paintwork represents a glorious fountain with sea creatures, potted topiary, and sprays of blooms in decorative vases.

This side cabinet has been further embellished with gilded scrollwork.

A beautiful cabinet for making an impact within any part of your home.
