20th Century Ladderax eight-bay shelving unit.

This piece comprises of modular teak bookshelves, cabinets, and display cases.

Featuring its original painted steel Ladderax supports and shelf rods. It was designed in 1964 by Robert Heal for Staples. This is an original set from that early period. It has had one owner from new so is in great condition for its age.

It has some discrete holes for stereo wiring on some of the units that do not detract from its charm.

A fantastic piece of Mid-Century design that shall continue to age beautifully.
