## Fossil Megalodon Shark Teeth in a Victorian Glass Dome

**£595.00**

W: 22 cm (8 11/16")  
H: 47 cm (18 1/2")  
D: 22 cm (8 11/16")

Pair of Megalodon fossil shark teeth mounted in a Victorian glass display dome.

These teeth date to around 3.6 million years old and would have belonged to the biggest shark type in the world; a megalodon.

The ebonised base is wonderfully tired with an internal and wonderful clear glass dome, making it ideal for displaying the teeth.

A great piece that would look great within a study or hallway.

Materials & Techniques: Fossil  
Condition: Good  
Period: 18th Cent and Earlier
