

C00622054

20th Century Anglo Indian Specimen Wood Table

£2,850.00

W: 89 cm (35 1/16")
H: 72 cm (28 3/8")
D: 89 cm (35 1/16")

An attractive, Anglo-Indian carved ebony octagonal centre table with specimen wood segmented top, circa 1900.

The top is inlaid with various woods in a radiating fan pattern from a central circle of ebony.

With an exotically beaded and carved frieze with turned hanging drops suspended from each corner.

Supported by four reeded and turned columns standing on a square, tiered base and shaped bracket feet.

Materials & Techniques: ['163']
