Gorgeous 20th Century marriage chest dated 1913 with original lock detail.

This marriage chest also has a candle store and gorgeous authentic hand painted detail. Great colour, would look at home against a stark contemporary interior or in a country house setting.

These items have excellent capacity for storage...Within today's home they also make for decorative side tables, coffee tables, tv tables, hallway storage/bench, boot room storage or as end of bed storage.

This item is antique and condition is commensurate with age; one carrying handle missing, does not affect the aesthetic of the piece at all.
