

BK2757269

Rare Dutch 18th Century Cabinet

£8,800.00

W: 166 cm (65 3/8")
H: 273 cm (107 1/2")
D: 37 cm (14 9/16")

Rare 18th Century Dutch oak cabinet. Circa 1770.

This beautiful piece retains its original hand-blown glazing, with grooved shelves for the display of porcelain.

Featuring carved appliqué decoration to the top of the doors, as well as a carved cornice.

It is unusually shallow for a Dutch cabinet, which tended to be more substantial in size. With its narrower depth, it has a lighter feel to it and very attractive proportions.

This is a wonderful display cabinet that will certainly do justice to any treasured pieces and collections.

Materials & Techniques: ['217']
Condition: Good
Period: 18th Cent and Earlier
