## Early 20th Century Scientific Lamp

**£380.00**

W: 40 cm (15 3/4")  
H: 61 cm (25")  
D: 26 cm (10 1/4")

Interesting early 20th Century lamp, manufactured by Arnold & Sons.

Arnold & Sons manufactured scientific equipment in the 19th and 20th Centuries, and this lamp was likely for use in a laboratory or medical environment.

Of semi-spherical shape, mounted on a small plinth base and with a metal lattice in front of the light bulb.

The bottom of the silver plate support column is stamped with the Arnold & Sons logo.

This piece has a great quirky feel and is the perfect industrial touch for an interior. It has been rewired and tested for safe use.
