## Campaign Apothecary Cabinet

**£875.00**

W: 111 cm (43 11/16")  
H: 119 cm (46 7/8")  
D: 56 cm (22 1/16")

Fascinating 19th Century campaign apothecary cabinet.

The hinged lid lifts up to reveal a worn red velvet lining, with several different bottles slotted into compact compartments.

A drawer below pulls out to reveal more compartments and bottles. Most have old labels on describing the contents, including 'brandy.'

In its original worn condition, this chest has a lovely patina and retains its brass hardware.

This is a great insight into medical history and the 19th Century version of a 'first aid box.'

Materials & Techniques: []  
Condition: Good  
Period: 19th Cent
